**Letter of Recommendation**

I have been a customer of Debits and Credits now for six years. I have found their accounting services both outstanding and personable. They assisted me during a very difficult time of establishing myself in a new medical practice. They were attentive and knowledgeable regarding my accounting and financial needs and they skilfully organized my office and personal book keeping.

Debits and Credits have continued to service my accounting needs in a very professional, prompt, caring and cost efficient manner. I highly recommend their services.

Yours truly,

Piri Fejes, B.S.c., (Hons) M.D., MCFP
